EDUCATION

Cebu Roosevelt Memorial Colleges(CRMC)

Bachelor of Science in Information Technology

2018-2022

SKILLS

- Java Spring Boot
- React
- TypeScript
- Electron
- MySQL
- SqlLite

PROFESSIONAL SUMMARY

Over the years, I've had the opportunity to work on diverse projects, from contributing to backend development to crafting seamless user interfaces. This journey has allowed me to experience various aspects of software development, including web applications and desktop applications. Additionally, I've honed my skills in both front-end and back-end technologies, gaining a comprehensive understanding of the entire development lifecycle.

WORK EXPERIENCES

Technical Specialist 2   **July 2024 – Present**
Alliance Software Inc.

- Build our desktop app as an installer for client testing.
- Creating hardware setup guide docs for client use
- Diagnose application issues from the client and release new updates
- Participate in application system testing to ensure functionality, performance, and stability. This includes identifying and documenting bugs, verifying fixes, and collaborating with the development team to improve the overall quality of the application.

Technical Specialist   **February 2023 – July 2024**
Alliance Software Inc.

- Implement CRUD functionality for the assigned module, including backend development and handling responses on the front end.
- Implement basic UI for the assigned modules.
- Implement hardware functionalities for printing receipts and opening the cash drawer.

Technical Stafff   **August 2022 – February 2023**
Alliance Software Inc.

- Contributing to the project codebase by developing API filtering and common functionalities
- Implementing an organized file structure within the project codebase.
- Collaborate with the senior team members to determine the appropriate tools and libraries for the project.
